Professional Summary

Enthusiastic Computer Science and Engineering (Cyber Security) graduate skilled in Python programming, software development, with a strong foundation in cybersecurity concepts. Eager to contribute to real-world projects and expand technical experience across various domains of computer science.

Education

Bachelor of Technology in Computer Science and Engineering (Cyber Security)

St. Joseph's College of Engineering and Technology, Palai
APJ Abdul Kalam Technological University, Kerala, India

CGPA: 7.9

Academic Scores:

- Class 12 (CBSE): 85%
- Class 10 (CBSE): 91%

Technical Skills

Programming: Python, C++, Java, SQL, JavaScript, React Native

Tools: Wireshark, Nmap, Git, Linux CLI, Docker, MySQL, Hydra, Autopsy, Metasploit

Other: LaTeX, MS Office, Figma

Projects

Trace - AI — Python, ELA, Multi-Modal Detection (GitHub Link)

- Multi-modal tool for detecting tampered/AI generated images via error-level analysis.

Auth Tester — Python, Multithreading (GitHub Link)

- HTTP Auth security assessment tool for lab environments with concurrent testing.

Anomaly Traffic Detector — Python, Scikit-learn (Isolation Forest) (GitHub Link)

- ML system that detects attacks like port scans and flood traffic from packet flows.

Certifications

- Infosys Springboard: Cyber Security and Applied Ethical Hacking — Apr 2026 (View Certificate)
- Cisco Networking Academy: Ethical Hacker — Oct 2025 (View Certificate)
- NPTEL (IIT Madras): Cyber Security and Privacy — Oct 2024 (View Certificate)

Achievements / Extracurriculars

- Second Prize, CYA QUEST Cybersecurity CTF — 27 Feb 2026
- Department Coordinator, ASTHRA National Tech Fest, SJ CET — 2023
